

# Fortinet device secures networks

US-based Fortinet, a provider of network security solutions, has introduced the FortiGate-224B, a LAN (local area network) security device.

It features 4.4 Gbps layer 2 switch performance, 150 Mbps firewall throughput, 24 x 10/100 switch ports, two 10/10/1000 switch ports and two 10/100 WAN (wireless area network) ports.

The FortiGate-224B is kept up to date automatically by Fortinet's FortiGuard subscription service, which provides continuous updates to help protect businesses against the latest viruses, worms, Trojans, and other online threats.

The price for the FortiGate-224B is US\$4,395 (S\$6,736).
