The phone service for FortiVoice systems

With great prices, end-to-end support, complete flexibility, and high-quality audio, FortiCall VoIP phone service is the smartest way to connect your FortiVoice phone system.

Great Prices: Business Unlimited

FortiCall gives you unlimited calling in the continental US (excluding Alaska) and Canada (excluding NWT) for only $24.95* per line per month. So talk all day long. Make some deals. Serve some customers. You won’t find better pricing, and if you do, read the small print; many competitors offer unlimited inbound calls, but bill by the minute on outbound calls. Or they bill for minutes past a ceiling, which can leave you with an unpleasantly surprising phone bill. With FortiCall unlimited lines, what you see is what you get.

The FortiCall pricing advantage doesn’t stop there. You also get amazing rates on international calling, starting as low as 1.5 cents per minute, and competitive rates on toll-free numbers.

Key Features and Benefits

- **Unlimited calling**: Highly economical flat rate calling for continental US (excluding Alaska) and Canada (excluding NWT).
- **Number flexibility**: Get local numbers in more than 10,000 areas in the United States and Canada, regardless of your location.
- **Direct inward dialing**: Assign exclusive phone numbers to users. Use exclusive numbers with specific call handling for customer or partner groups. Track results of marketing campaigns with dedicated numbers.
- **Easy set-up and do-it-yourself online management**: Add or remove lines and numbers within minutes; no need to call the phone company or pay extra configuration fees.
- **Toll-free and international calling available**: Flexible, inexpensive, and easy-to-manage premium calling services.
- **e911 control**: Online e911 configuration and validation so you can ensure emergency services can find you if anything goes wrong.

* Minimum purchase of two lines required. Unlimited calling not available in all areas. Requires broadband Internet connection.

Don't take our word for it; check out the quality of FortiCall yourself with a free test-drive. You get outbound calling for 30 days or 300 minutes, whichever comes first. Get it at www.forticall.com

Fax to Email

- Get incoming fax directly to your inbox for $9.95 per month
HIGHLIGHTS

End-to-End Support: No More Pointing Fingers
You know how the usual runaround goes; you need to resolve an issue, but the hardware support people blame the service, and the service people blame the hardware. Not with FortiCall. If you ever have a problem, you’re talking to the same dedicated technical assistance team that fixes your phone system. They know FortiCall, they know FortiVoice, and they know how to help.

Complete Flexibility: Do-It-Yourself Control
It’s fast and easy to add or remove lines and numbers with FortiCall as your business changes. Require more lines for busy times? Need a direct phone number for each of the executive team? Want to offer customers in distant markets a local phone number to reach you? FortiCall makes it easy. Extra numbers are only one dollar each per month, and you can choose areas throughout the US and Canada. And you can manage your lines and numbers yourself, so there’s no extra expense or waiting for the phone company to roll out a truck if you need to change something.

Keep Your Current Number
Chances are that you can keep your current number as well. Visit www.forticall.com to see if your number is portable. You can also check your network speed to ensure your network is ready for FortiCall.

Goodbye Fax Machine
Still have a fax machine and pay your phone company for a dedicated phone line for it? You’re paying too much for something you probably don’t use enough. FortiCall can fix that for you. The fax to e-mail feature gives you inbound faxing directly to your e-mail, eliminating the machine, for only $9.95 per month. So unplug that relic of the 20th century and say hello to saving money.
