The FortiGate 60E series offers an excellent Security and SD-WAN solution in a compact fanless desktop form factor for enterprise branch offices and mid-sized businesses. Protect against cyber threats with industry-leading secure SD-WAN in a simple, affordable and easy to deploy solution.

**Security**
- Identifies thousands of applications inside network traffic for deep inspection and granular policy enforcement
- Protects against malware, exploits, and malicious websites in both encrypted and non-encrypted traffic
- Prevent and detect against known and unknown attacks using continuous threat intelligence from AI powered FortiGuard Labs security services

**Performance**
- Delivers industry's best threat protection performance and ultra-low latency using purpose-built security processor (SPU) technology
- Provides industry-leading performance and protection for SSL encrypted traffic

**Certification**
- Independently tested and validated best security effectiveness and performance
- Received unparalleled third-party certifications from NSS Labs, ICSA, Virus Bulletin and AV Comparatives

**Networks**
- Best of Breed SD-WAN capabilities to enable application steering using WAN path control for high quality of experience
- Delivers advanced networking capabilities, high-performance, and scalable IPsec VPN capabilities

**Management**
- Includes Management Console that’s effective, simple to use, and provides comprehensive network automation & visibility.
- Provides Zero Touch Integration with Security Fabric’s Single Pane of Glass Management
- Predefined compliance checklist analyzes the deployment and highlights best practices to improve overall security posture

**Security Fabric**
- Enables Fortinet and Fabric-ready partners’ products to provide broader visibility, integrated end-to-end detection, threat intelligence sharing and automated remediation
- Automatically builds Network Topology visualizations which discover IoT devices and provide complete visibility into Fortinet and Fabric-ready partner products

Deployment

Unified Threat Management (UTM)

- Integrated wired and wireless networking to simplify IT
- Purpose-built hardware for industry best performance with easy administration through cloud management
- Provides consolidated security and networking for small businesses and consistently provides top-rated threat protection
- Proactively blocks newly discovered sophisticated attacks in real-time with advanced threat protection

Secure SD-WAN

- Secure direct Internet access for Cloud Applications for improved latency and reduce WAN cost spending
- High-performance and cost-effective threat protection capabilities
- WAN Path Controller and Link Health Monitoring for better application performance and quality of experience
- Security Processor powered industry’s best IPsec VPN and SSL Inspection performance
- Simplified Management and Zero Touch deployment
Hardware

**FortiGate 60E-DSL/J**

- **Powered by SPU SoC3**
  - Combines a RISC-based CPU with Fortinet’s proprietary SPU content and network processors for unmatched performance
  - Simplifies appliance design and enables breakthrough performance for smaller networks
  - Supports firewall acceleration across all packet sizes for maximum throughput
  - Delivers accelerated UTM content processing for superior performance and protection
  - Accelerates VPN performance for high speed, secure remote access

- Comprehensive WAN connectivities
  - The FortiGate/FortiWiFi 60E-DSL/J includes a built-in DSL modem, along with support for 3G/4G connectivity via external third-party USB modems or FortiExtender. These capabilities provide redundant links for maximum reliability.

- Compact and Reliable Form Factor
  - Designed for small environments, you can place it on a desktop or wall-mount it. It is small, lightweight yet highly reliable with superior MTBF (Mean Time Between Failure), minimizing the chance of a network disruption.

- Superior Wireless Coverage
  - A built-in dual-band, dual-stream access point with internal antennas is integrated on the FortiWiFi 60E-DSL/J and provides speedy 802.11ac wireless access. The dual-band chipset addresses the PCI-DSS compliance requirement for rogue AP wireless scanning, providing maximum protection for regulated environments.

**FortiWiFi 60E-DSL/J**

- **Interfaces**
  1. USB Port
  2. Console Port
  3. 1x GE RJ45 WAN Port
  4. 1x GE RJ45 DMZ Port
  5. 7x GE RJ45 Internal Ports

Fortinet Security Fabric

Security Fabric
The Security Fabric delivers broad visibility, integrated AI-driven breach prevention, and automated operations, orchestration, and response across all Fortinet and its ecosystem deployments. It allows security to dynamically expand and adapt as more and more workloads and data are added. Security seamlessly follows and protects data, users, and applications as they move between IoT, devices, and cloud environments throughout the network. All this is tied together under a single pane of glass management for significantly thereby delivering leading security capabilities across your entire environment while also significantly reducing complexity.

FortiGates are the foundation of Security Fabric, expanding security via visibility and control by tightly integrating with other Fortinet security products and Fabric-Ready Partner solutions.

FortiOS
Control all security and networking capabilities across the entire FortiGate platform with one intuitive operating system. Reduce complexity, costs, and response time with a truly consolidated next-generation security platform.

- A truly consolidated platform with a single OS and pane-of-glass for all security and networking services across all FortiGate platforms.
- Industry-leading protection: NSS Labs Recommended, VB100, AV Comparatives, and ICSA validated security and performance. Ability to leverage latest technologies such as deception-based security.
- Control thousands of applications, block the latest exploits, and filter web traffic based on millions of real-time URL ratings in addition to true TLS 1.3 support.
- Prevent, detect, and mitigate advanced attacks automatically in minutes with integrated AI-driven breach prevention and advanced threat protection.
- Fulfil your networking needs with extensive routing, switching, and SD-WAN capabilities along with intent-based segmentation.
- Utilize SPU hardware acceleration to boost security capability performance.

Services

FortiGuard™ Security Services
FortiGuard Labs offers real-time intelligence on the threat landscape, delivering comprehensive security updates across the full range of Fortinet’s solutions. Comprised of security threat researchers, engineers, and forensic specialists, the team collaborates with the world’s leading threat monitoring organizations and other network and security vendors, as well as law enforcement agencies.

FortiCare™ Support Services
Our FortiCare customer support team provides global technical support for all Fortinet products. With support staff in the Americas, Europe, Middle East, and Asia, FortiCare offers services to meet the needs of enterprises of all sizes.

### Operating Environment and Certifications

- **Power Required**
  - 100–240V AC, 50–60 Hz
- **Maximum Current**
  - 110V AC / 1.5 A
  - 115V AC / 0.9 A
  - 220V AC / 0.75 A
  - 230V AC / 0.6 A
- **Total Available PoE Power Budget**
  - N/A
- **Power Consumption (Average / Maximum)**
  - 11.7 / 114 W
  - 12.6 / 15.2 W
- **Heat Dissipation**
  - 40 BTU/h
  - 52 BTU/h
- **Operating Temperature**
  - 32–104°F / 0–40°C
- **Storage Temperature**
  - 31–158°F / -35–70°C
- **Humidity**
  - 10–90% non-condensing
- **Noise Level**
  - 40 dBA
- **Operating Altitude**
  - Up to 7,400 ft (2,250 m)

### Compliance

- ICSA Labs: Firewall, IPsec, IPS, Antivirus, SSL-VPN

### Supported Model Standards

- **FGT/FWF-60E-DSL**
  - ANSI T1.413 Issue 2, ETSI ADSL over ISDN (TS 101 388)
  - ITU-T G.992.1, Annex A
  - ITU-T G.992.5 (ADSL2) – Annex A, Annex M
  - ITU-T VDSL2 (G.993.2) – Annex A, Annex M
  - ITU-T VDSL1 (G.993.1)
  - ITU-T V.92.1
  - ITU-T V.92.2

- **FGT/FWF-60E-DSLJ**
  - G.992.1 Annex B
  - G.992.3 Annex B
  - G.992.5 Annex B
  - G.993.2 VDSL2
  - G.993.5 Vectoring

### Notes

1. All performance values are “up to” and vary depending on system configuration.
2. IPsec VPN performance test uses AES256-SHA256.
3. IPS (Enterprise Mix), Application Control, NGFW and Threat Protection are measured with Logging enabled.
4. SSL inspection performance values use an average of HTTPS sessions of different cipher suites.
5. NGFW performance is measured with Firewall, IPS and Application Control enabled.
6. Threat Protection performance is measured with Firewall, IPS, Application Control and Malware Protection enabled.
