The FortiGate 4400F series delivers high performance next generation firewall (NGFW) capabilities for large enterprises and service providers. With multiple high-speed interfaces, high-port density, and high-throughput, ideal deployments are at the enterprise edge, hybrid data center core, and across internal segments. Leverage industry-leading IPS, SSL inspection, and advanced threat protection to optimize your network’s performance. Fortinet’s Security-Driven Networking approach provides tight integration of the network to the new generation of security.

### Security
- Identifies thousands of applications inside network traffic for deep inspection and granular policy enforcement
- Protects against malware, exploits, and malicious websites in both encrypted and non-encrypted traffic
- Prevents and detects against known attacks using continuous threat intelligence from AI-powered FortiGuard Labs security services
- Proactively blocks unknown sophisticated attacks in real-time with the Fortinet Security Fabric integrated AI-powered FortiSandbox

### Performance
- Engineered for Innovation using Fortinet’s purpose-built security processors (SPU) to deliver the industry’s best threat protection performance and ultra-low latency
- Provides industry-leading performance and protection for SSL encrypted traffic including the first firewall vendor to provide TLS 1.3 deep inspection

### Networking
- Application aware routing with in-built SD-WAN capabilities to achieve consistent application performance and the best user experience
- Built-in advanced routing capabilities to deliver high performance with encrypted IPSEC tunnels at scale

### Management
- Includes a management console that is effective and simple to use, which provides a comprehensive network of automation & visibility
- Provides Zero Touch Provisioning leveraging Single Pane of Glass Management powered by the Fabric Management Center
- Predefined compliance checklists analyze the deployment and highlight best practices to improve the overall security posture

### Security Fabric
- Enables Fortinet and Fabric-ready partners’ products to provide broader visibility, integrated end-to-end detection, threat intelligence sharing, and automated remediation
- Automatically builds Network Topology visualizations which discover IoT devices and provide complete visibility into Fortinet and Fabric-ready partner products

### Certification
- Independently tested and validated best security effectiveness and performance
- Received unparalleled third-party certifications from NSS Labs, ICSA, Virus Bulletin, and AV Comparatives

Refer to the specifications table for details.
**Deployment**

**Next Generation Firewall (NGFW)**
- Reduce the complexity and maximize your ROI by integrating threat protection security capabilities into a single high-performance network security appliance, powered by Fortinet’s Security Processing Unit (SPU)
- Full visibility into users, devices, applications across the entire attack surface and consistent security policy enforcement irrespective of asset location
- Protect against network exploitable vulnerabilities with Industry-validated IPS security effectiveness, low latency and optimized network performance
- Automatically block threats on decrypted traffic using the Industry’s highest SSL inspection performance, including the latest TLS 1.3 standard with mandated ciphers
- Proactively block newly discovered sophisticated attacks in real-time with AI-powered FortiGuard Labs and advanced threat protection services included in the Fortinet Security Fabric

**Segmentation**
- Segmentation that adapts to any network topology, delivering end-to-end security from the branch level to data centers and extending to multiple clouds
- Reduce security risks by improving network visibility from the components of the Fortinet Security Fabric, which adapt access permissions to current levels of trust and enforce access control effectively and efficiently
- Delivers defense in depth security powered by high-performance L7 inspection and remediation by Fortinet’s SPU, while delivering third party validated TCO of per protected Mbps
- Protects critical business applications and helps implement any compliance requirements without network redesigns

**Mobile Security for 4G, 5G, and IOT**
- SPU accelerated, high performance CGNAT and IPv4 and IPv6 traffic, for 4G SGi LAN and 5G N6 security
- RAN Access Security with highly scalable and best performing IPsec aggregation and control security gateway (SecGW)
- User plane security enabled by full Threat Protection and visibility into GTP-U inspection
- 4G and 5G security for user and data plane traffic SCTP, GTP-U/C and SIP that provides protection against attacks
- 4G and 5G cores IoT signaling storm protection
- High-speed interfaces to enable deployment flexibility

**IPS**
- Purpose-built security processors delivering industry validated IPS performance with high throughput and low latency
- Deploy virtual patches at the network level to protect against network exploitable vulnerabilities and optimize network protection time
- Deep packet inspection at wire speeds offers unparalleled threat visibility into network traffic including traffic encrypted with the latest TLS 1.3
- Proactively block newly discovered sophisticated attacks in real-time with advanced threat protection provided by the intelligence services of the Fortinet Security Fabric

**Carrier-Grade NAT (CGN) Gateway**
- Specialized hardware acceleration architecture with outstanding high CPS, capable of processing massive signaling surges
- Offers carrier-grade scalability with ultra-high number of IP address translations and connection setup rates, high throughput, and high-speed logging
- Built for BYOD and IoT with support for a high number of Concurrent Sessions
- Compact 3U form factor, ideal for space-constraint applications and lower colocation cost for service providers
- Comprehensive Carrier-Grade NAT and IPv6 migration options including: NAT44, NAT444, NAT64/DNS64, & NAT46
Hardware
FortiGate 4400F and 4401F

Interaces
1. USB Management and Console Port
2. 2x GE RJ45 Management Ports
3. 2x 25 GE SFP28 / 10 GE SFP+ / GE SFP High Availability Slots
4. 2x 25 GE SFP28 / 10 GE SFP+ / GE SFP AUX Slots
5. 16x 25 GE SFP28 / 10 GE SFP+ / GE SFP Slots
6. 12x 100 GE QSFP28 / 40 GE QSFP+ Slots

Hyperscale Firewall License
Empower organizations by unlocking further performance boosts with this perpetual license. The Hyperscale Firewall License will enable the hardware acceleration of CGNAT features by utilizing the latest SPU NP7. These features include hardware session setup, firewall session logging, and NAT.

Network Processor
Fortinet’s latest SPU NP7 Hyperscale architecture is a purpose-built network processor that delivers accelerated hardware performance for FortiOS:
- IPv4/IPv6, SCTP, unicast, multicast and anycast
- CAPWAP, VXLAN and GRE IP tunneling
- IPSec VPN (including Suite B)
- DDoS protection in hardware against volumetric attacks, fragment reassembly, traffic shaping and priority queuing
- Elephant Flows of up to 100Gbps

Content Processor
The SPU CP9 content processor works outside of the direct flow of traffic, providing high-speed cryptography and content inspection services including:
- Signature-based content inspection acceleration
- Encryption and decryption offloading

100 GE Connectivity for Network
High-speed connectivity is essential for network security segmentation at the core of data networks. The FortiGate 4400F provides multiple 100 GE QSFP28 slots, simplifying network designs without relying on additional devices to bridge desired connectivity.

Powered by SPU
- Custom SPU processors deliver the power you need to detect malicious content at multi-Gigabit speeds
- Other security technologies cannot protect against today’s wide range of content- and connection-based threats because they rely on general-purpose CPUs, causing a dangerous performance gap
- SPU processors provide the performance needed to block emerging threats, meet rigorous third-party certifications, and ensure that your network security solution does not become a network bottleneck
Fortinet Security Fabric

Security Fabric
The Security Fabric is the cybersecurity platform that enables digital innovations. It delivers broad visibility of the entire attack surface to better manage risk. Its unified and integrated solution reduces the complexity of supporting multiple-point products, while automated workflows increase operational speeds and reduce response times across the Fortinet deployment ecosystem. The Fortinet Security Fabric covers the following key areas under a single management center:

- Security-Driven Networking that secures, accelerates, and unifies the network and user experience
- Zero Trust Network Access that identifies and secures users and devices in real-time, on and off of the network
- Dynamic Cloud Security that protects and controls cloud infrastructures and applications
- AI-Driven Security Operations that automatically prevents, detects, isolates, and responds to cyber threats

FortiOS
FortiGates are the foundation of the Fortinet Security Fabric—the core is FortiOS. All security and networking capabilities across the entire FortiGate platform are controlled with one intuitive operating system. FortiOS reduces complexity, costs, and response times by truly consolidating next-generation security products and services into one platform.

- A truly consolidated platform with a single OS and pane-of-glass for across the entire digital attack surface.
- Industry-leading protection: NSS Labs Recommended, VB100, AV Comparatives, and ICSA validated security and performance.
- Leverage the latest technologies such as deception-based security.
- Control thousands of applications, block the latest exploits, and filter web traffic based on millions of real-time URL ratings in addition to true TLS 1.3 support.
- Automatically prevent, detect, and mitigate advanced attacks within minutes with an integrated AI-driven security and advanced threat protection.
- Improve and unify the user experience with innovative SD-WAN capabilities with the ability to detect, contain, and isolate threats with automated segmentation.
- Utilize SPU hardware acceleration to boost network security performance.

Services

FortiGuard™ Security Services
FortiGuard Labs offer real-time intelligence on the threat landscape, delivering comprehensive security updates across the full range of Fortinet’s solutions. Comprised of security threat researchers, engineers, and forensic specialists, the team collaborates with the world’s leading threat monitoring organizations and other network and security vendors, as well as law enforcement agencies.

FortiCare™ Support Services
Our FortiCare customer support team provides global technical support for all Fortinet products. With support staff in the Americas, Europe, Middle East, and Asia, FortiCare offers services to meet the needs of enterprises of all sizes.

System Performance — Enterprise Traffic Mix

IP Throughput 1 94 Gbps
IPFW Throughput 1, 4 82 Gbps
Threat Protection Throughput 1, 4 75 Gbps

System Performance and Capacity

Firewall Throughput (1518 / 512 / 64 byte, UDP) 1.15 / 1.14 / 0.50 Tbps
IPv6 Firewall Throughput (1518 / 512 / 96 byte, UDP) 1.15 / 1.14 / 0.50 Tbps
Firewall Throughput (64 byte, UDP) 1.0Gbps
Firewall Throughput (Packet per Second) 750 Mpps
Concurrent Sessions (TCP) 210 Million / 700 Million*
New Sessions/Second (TCP) 1 Million / 1 Million*
Firewall Policies 200,000
IPsec VPN Throughput (512 byte) 110 Gbps
Gateway-to-Gateway IPsec VPN Tunnels 40,000
Client-to-Gateway IPsec VPN Tunnels 200,000
SSL-VPN Throughput 16 Gbps
Concurrent SSL-VPN Users 30,000

(Recommended Maximum, Tunnel Mode)

SSL Inspection Throughput (IPS, avg. HTTPS) 86 Gbps
SSL Inspection Throughput (IPS, avg. HTTPS) 70 Mpps
SSL Inspection Concurrent Session (IPS, avg. HTTPS) 0 Million
Application Control Throughput (HTTP 64K) 140 Gbps
CAPWAP Throughput (HTTP 64K) 63 Gbps
Virtual Domains (Default / Maximum) 10 / 500
Maximum Number of FortiSwitches Supported 300
Maximum Number of FortiAPs (Total / Tunnel Mode) 8,192 / 4,096
Maximum Number of FortiTokens 20,000
High Availability Configurations Active / Active, Active / Passive, Clustering

Dimensions and Power

Height x Width x Length (inches) 6.97 x 17.20 x 26.17
Weight 81.8 lbs (37.1 kg) 83.1 lbs (37.7 kg)
Form Factor (supports EIA / non-EIA standards) Rack Mount, 4 RU
Power Input 100–240V AC, 50/60 Hz
AC Current (Maximum) 20A@100V, 9A@240V
Power Consumption (Average/ Maximum) 1533 W / 1539 W / 1861 W
Heat Dissipation 6,397.77 BTU/h 6,418.24 BTU/h
Redundant Power Supplies Yes, Hot Swappable, 2+2

Operating Environment and Certifications

Operating Temperature 32–104°F (-20–40°C)
Storage Temperature -31–158°F (-35–70°C)
Humidity 20–90% non-condensing
Noise Level 68.9 dBA
Operating Altitude Up to 7,400 ft (2,250 m)**

Compliance

UL/ULC CB
FCC Part 15 Class A, RCM, VCCI, CE, UL/cUL, CB

ICSA Labs: Firewall, IPsec, IPS, Antivirus, SSL-VPN, USGv6 IPv6

**Operating at maximum temperature derates 1.5°C per 1000ft (305m)

*Requires Hyperscale Firewall License

Note: All performance values are “up to” and vary depending on system configuration.
1. IPsec VPN performance is measured using “EE-266-SHA256”
2. IPS (Enterprise Mix), Application Control, NGFW, and Threat Protection are measured with Logging enabled.
3. SSL Inspection performance values use an average of HTTPS sessions of different cipher suites.
4. NGFW performance is measured with Firewall, IPS, and Application Control enabled.
5. Threat Protection performance is measured with Firewall, IPS, Application Control, URL filtering, and Malware Protection with sandboxing enabled.
**Order Information**

**Product** | **SKU** | **Description**
---|---|---
FortiGate 4400F | FG-4400F | 12x 100GE/40GE QSFP28 slots and 18x 25GE/10GE SFP28 slots, 2 x GE RJ45 Management Ports, SPU NP7 and CP9 hardware accelerated, and AC power supplies.

FortiGate 4401F | FG-4401F | 12x 100GE/40GE QSFP28 slots and 16x 25GE/10GE SFP28 slots, 2 x GE RJ45 Management Ports, SPU NP7 and CP9 hardware accelerated, 2x 2TB storage and 40G port supplies.

Hyperscale Firewall License | LIC-FG1-HYPS | Hyperscale Firewall License for FortiGate FG-4200F/FG4201F Series for hardware session setup acceleration and logging.

**Optional Accessories**

| Accessory | Description |
---|---|
AC power supply | SP-R4400F-PS |
1 GE SFP LX Transceiver Module | FN-TRAN-LX |
1 GE SFP RJ45 Transceiver Module | FN-TRAN-RJ45 |
1 GE SFP SX Transceiver Module | FN-TRAN-SA |
10 GE SFP+ RJ45 Transceiver Module | FN-TRAN-SFP+RJ |
