About the Fortinet Security Awareness and Training Service

The Fortinet Security Awareness and Training Service is a Software-as-a-Service (SaaS) offering that can be integrated with FortiPhish to provide a full turnkey solution. Training delivered in multiple formats, including video, text, audio, imagery, and animation, appeals to different learning styles to ensure that training is understood and applied. Smaller, more easily consumed lengths such as micro-learning and nano-learning coupled with communications resources allow organizations to augment their training to help reinforce key lessons.
