Fortinet Security Awareness and Training Service

Comprehensive SaaS-based Solution.

Train employees with a guided security training program. Created by the Fortinet Training Institute, the Fortinet Security Awareness and Training service helps IT, Security, and Compliance leaders build a cyber-aware culture where employees recognize and avoid falling victim to cyberattacks.

The Fortinet Security Awareness and Training service is developed by Fortinet’s award-winning Fortinet Training Institute.

With content incorporating threat intelligence insights from FortiGuard Labs, the service arms your employees with the latest knowledge, guidance, and tips to make smarter choices when confronted by cyber attacks and other risks to your organization.

Highlights

- Aligns to the National Institute of Standards and Technology framework (NIST 800-50 and NIST 800-16): addresses Security Awareness, Data Privacy, Internet Security, Password Protection, and Physical Security
- Includes quarterly training alerts mapped from Fortinet Threat Signals reports to provide timely awareness of current and active threats
- Appeals to various learning styles by delivering engaging, interactive training through video, text, audio, imagery, and animations
- Interactive quizzes and knowledge checks throughout the training keep learners engaged and interested while allowing managers to assess knowledge levels
- Up-to-the-minute activity tracking gives admins the ability to monitor and run reports on training campaigns, user completion and performance, cross-organizational usage, and other results

Create a cyber-aware workforce.
