

You Are Invited to a Fortinet Virtual Briefing

WHAT?

Visiting our HQ for a briefing is not possible at this time, so we now offer virtual briefings. We connect the leaders of your company with Fortinet executives and thought leaders.

- Interactive engagement with your company and Fortinet
- Connect with Fortinet's global experts and executives from your location(s)
- Participate in peer-to-peer dialogues about industry trends and exchange ideas
- Relationship-building with key stakeholders

UK Gov't Customer (Head of Network Services):

"I'd also like to pass on my thanks to you and the Fortinet team. There was a lot of information but it was a really good presentation and I found it really beneficial and can see lots of benefits. Lots of positive feedback from those on the call too so it landed really well."

WHY?

Together discuss your current challenges and future business needs and how Fortinet can support your success.

- Preapproved agendas, tailored to your specific goals and objectives
- Product demonstrations, product roadmap discussions and virtual tours
- Experience both current and future Fortinet offerings

National Partner (joined virtual briefing with EDU customer):

"I spoke with Jay afterwards and the feedback was great. The team was pleased to see how organized the call was and that your team covered each bullet point that they wanted to hear about. Between you and I, I was told that this call was the best they had compared to your competitors; so, I would like to commend you and your team for a job well done!"

HOW?

Contact your account manager to schedule a highly customized briefing to discuss your vision and collaborate with Fortinet experts to achieve your goals. Connect on our virtual platform (Zoom, GoToMeeting, Teams, etc.).

- Agendas specific to your challenges and business goals
- Informative 1- to 3-hour virtual briefing
- Bringing the right people together to focus on your business!
- Ask your Fortinet account manager to schedule your virtual briefings
