

# Zero Trust Access Consulting Services

## Service Overview

To stay ahead of a rapidly evolving threat landscape, organizations must adopt security architecture and operations that enable a comprehensive and measured approach to cybersecurity. Fortinet offers Zero Trust Access Consulting Services to partner with business leaders, helping organizations be at their best through this ever-changing environment.

Fortinet experts discover existing security posture elements through a vendor-agnostic approach, align findings to business goals, strategic objectives, and compliance requirements, and guide existing projects and future planning toward framework maturity. These collective tasks and outcomes empower organizations to achieve a holistic security architecture resilient enough to withstand continuous change in the threat landscape.

## Advisory Team Proficiency

- ✓ Dedicated access to experienced professionals who possess decades of industry security experience and direct connection to additional experts inside Fortinet
- ✓ Our team can provide customers with Zero Trust Access advisory services during the entire lifecycle of their projects
