

Think Outside the Classroom

Better Student Performance Starts With Reliable Internet Connections

Now you can get your students connected with wider broadband coverage at home with Linksys HomeWRK for Education. Your students can have secure and reliable internet access so they can participate in academic activities and complete homework assignments when away from school.

Designed With Equality Education in Mind

There's a solution for every school district, no matter the size or where you're located. Linksys HomeWRK for Education offers portable 4G/LTE hotspot hardware and simple data plans with high-speed internet access through Linksys Mobile's reliable network service. We help your school to provide equality education by providing all students with sustainable broadband connections at home for better academic achievement.

- Reliable connectivity
- Seamless onboarding
- Nationwide coverage
- Zero-touch provisioning

Broad and flexible broadband network

Linksys Mobile, our smart mobile network, is compatible with major nationwide service providers to enable internet access virtually everywhere. Our solution automatically picks the available broadband service in any area, so your students can have uninterrupted connection at home to complete homework and master their digital skills. You have the flexibility to enable internet access for students regardless of their locations.

Helping schools meet CIPA compliance

Linksys HomeWRK for Education is protected by the latest security and web-filtering technology from Fortinet, a recognized cybersecurity leader by Gartner and many industry analysts. The solution intelligently filters inappropriate content and blocks harmful malware, so students only get the content that matters most. You can comply to the Children's Internet Protection Act (CIPA) requirements and provide safe internet access for all students.

Simple and reliable hardware and unlimited data plans

Linksys HomeWRK for Education offers quality plug-and-play hardware and easy subscription plans to meet your district's connectivity needs without increasing IT's burden or expenses.

Hardware product:

- Linksys 4G/LTE Mobile Hotspot, priced at \$250 MSRP

Linksys Mobile unlimited data plans:

Data Plan Options	Description	Price
Unlimited Standard	Monthly unlimited data per student. Using >2GB/month may notice reduced speeds	\$20 USD
Unlimited Plus	Monthly unlimited data per student. Using >5GB/month may notice reduced speeds	\$30 USD
Unlimited Premium	Monthly unlimited data per student. Using >10GB/month may notice reduced speeds	\$55 USD
Unlimited Platinum	Monthly unlimited data per student. Using >20GB/month may notice reduced speeds	\$90 USD
Unlimited Platinum Plus	Monthly unlimited data per student. Using >40GB/month may notice reduced speeds	\$150 USD

**Certain limits and restrictions may apply. Compatible equipment required. Upon reaching your high-speed data allowance, speed may be slowed to a max of 128Kbps for the remainder of your bill cycle. Coverage not available in some areas. During times of congestion, data may be temporarily slower than other traffic.*

Qualified for Government Stimulus Funding

The Linksys HomeWRK solution's hardware and data plans qualify for many eligible government grants for your 2021–2022 school year!
